Stop Inefficiency In Your HMDA Audits

59%

of lenders named technology readiness and inadequate controls as their top HMDA concern.[*]

Manual processes create the biggest jam up in running an efficient HMDA audit.

Automate first

Drive audits with data from either:
- A trusted source

or

- A complete 360-degree loan document to system comparison

Red light defects and green light verified, validated data

Eliminate spreadsheets

Stop manually reviewing 100% of your loans and eliminate spreadsheet "stare & compare"

100%

<10%

On average HMDA defects occur in single digit percentages, focus only on correcting deficiencies

Fast-track efficiency

Use automated rules to perform a majority of the audit work

>90%
